

AQUAVIVE® WATER

AQUAVIVE® PRE-FILLED WATER BOTTLES ARE EXTERNAL WATER BOTTLES FOR MICE AND RATS THAT ARE DESIGNED TO BE USED WITH INNOVIVE DISPOSABLE CAGING

MAIN FEATURES

- » Ultrapure, Acidified and Chlorinated water available
- » Made from 100% PET plastic, BPA-free and completely recyclable
- » Delivered double-bagged and irradiated
- » Traceable quality tests performed on each batch produced
- » Highly regulated multi-step formulation process
- » Ergonomic bottle design makes it easy to handle

FACILITY BENEFITS

- » A complete, outsourced solution
- » Allows for a new bottle at every change
- » Bottle design helps make it easier to dose
- » Bottles can be stored up to 12 months

PRE-FILLED BENEFITS

- » Effective solution for emergency planning
- » Minimizes labor and utility expenses associated with bottle processing
- » Eliminates costly washing, autoclaving and bottle filling

OPTIONS

- » 300ml bottle for mice
- » 850ml bottle for rats
- » Bottles available as pre-filled or empty
- » Amber non-filled bottles available for light sensitive compounds
